# Quick Start

# AT&T Ready2Go

Ready2Go helps you configure Wi-Fi®, email, and social networks when initially setting up your device.

① When your phone first starts up, you'll see the AT&T Ready2Go wizard. Tap **get started**.
② Connect to a Wi-Fi network. Tap **next**.
③ Set up your Gmail™ account and tap **next**. Or, tap **Create a New Google™ Account**.
④ Set up additional email addresses if desired. Tap **next**.
⑤ Set up your social networks if desired. Tap **next**.
⑥ Choose whether you'd like to import contacts. Tap **next**.
⑦ Follow any additional on-screen instructions to finish setup. You will be taken to your home screen.

# Customize Your Phone

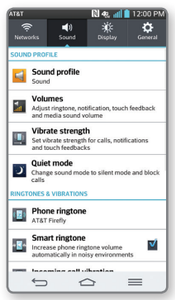
## *Home Screen*

① Press and hold an empty spot on a home screen and choose a category:
- **Apps:** Add shortcuts from the app tray.
- **Widgets:** Add dynamically updating widgets.
- **Wallpapers:** Change your wallpaper.

② To move an item, press and hold it and drag it to a new location. To delete it, drag it to **Remove**.

## *Your Sounds*

From the home screen, press and tap **All settings** > **Sound**. You can change your ringtones, set notification sounds, and adjust your touch feedback options.



# Touch Screen

## *KnockON*

① KnockON is enabled at default. To turn it on or off, from the home screen, press and tap **All settings** > **General** > **Gestures** > **Screen on/off**.
② With KnockON enabled and the phone locked, quickly double-tap the screen to wake the phone.
③ Double-tap the screen again to lock the phone.

## *Notifications Panel*

Swipe down on the top of the screen to open the Notifications Panel.
- To respond to a notification, tap it.
- To remove a notification, swipe it left or right.
- To remove all notifications, tap **Clear**.
- Adjust the Quick Settings by tapping them (i.e., **Sound**).
- Tap next to Clear to access the Settings menu.

# Camera and Video

## *Dual Camera and Dual Recording*

① From the home screen, tap > MODE > **Dual camera**.
② Tap the inset box to toggle front and rear camera views. You can also move and resize the box.
③ Tap to take a picture.
④ To use Dual Recording, tap > MODE > **Dual recording**.
⑤ Tap . To stop recording, tap .

## *Shot & Clear*

① From the home screen, tap > MODE > **Shot & Clear**.
② Tap to take a picture.
③ Objects that can be removed from the photo are highlighted in blue. Tap a highlighted area to remove the unwanted portion of the image in your photo. Tap to save.

# Transfer Music and Pictures

① Connect your G2 to your computer with a USB cable. Steps may vary depending on your operating system.
② You may be prompted to install PC programs. Tap **OK** > **Media sync (MTP)**.
③ On your PC, choose **Open device to view files** using Windows Explorer.
④ Your phone will appear as another hard drive on your computer. Click on the drive to view it.
⑤ Drag and drop your files* into the corresponding folders, such as Music, Movies, or Pictures. You can also transfer files from your PC to your phone.
⑥ When you're finished, return to the USB connection type screen and choose **Charge Phone**. You may now unplug your device.

# Calls and Voicemail

## *Make a Call*

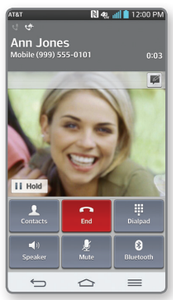
① From the home screen, tap .
② Enter a phone number or spell the name of a contact. Tap the contact and then tap .

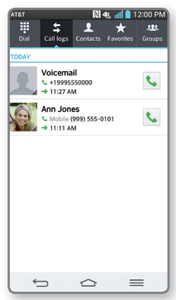
## *Access Voicemail*

① From the home screen, tap > .
② Follow voice prompts to listen to messages.

## *Access Call Logs*

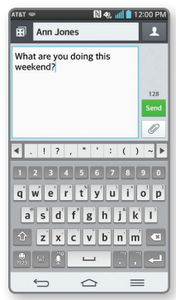
① From the home screen, tap > **Call logs**.
② Tap an entry to view it.
③ Tap to call or to send a text. Tap to update a contact or create a new one.

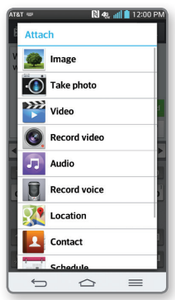




# Text Messaging

① From the home screen, tap > .
② In the **To** field, enter a number or tap to select a name from your contact list. You can enter several names to send your message to multiple people.
③ Enter your message.
④ Tap to attach a file.
⑤ Tap **Send** to send the message.



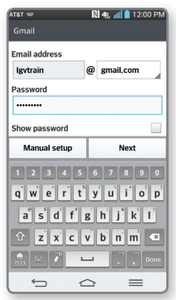


***Please don't text and drive.***

Messaging rates apply.

# Email

① From the home screen, tap .
② Tap an account type. Steps may vary from this point.
③ Enter your email address and password and tap **Next**.
④ Follow additional on-screen instructions to complete setup and tap **Done**.



Note: Contact your IT administrator to help set up your corporate Microsoft® Exchange account.

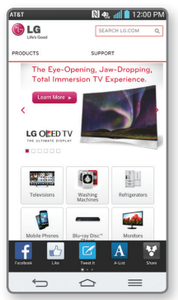
# Web

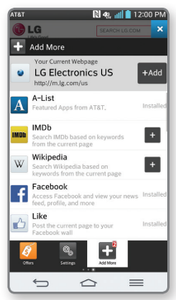
Browse the web with ease with the 4.5" touch screen and enable the Browser Bar for access to Facebook®, related apps, and more.

① From the home screen, tap .
② Tap the address bar at the top of the page and enter an address. You may need to scroll to the top of the page.
③ Tap **Go** on the keyboard.

## *Use the Browser Bar*

① To reveal the Browser Bar, swipe up from at the bottom of the browser screen.
② To add a button, tap **Add More** and select a choice or create one of your own.
③ Tap **Settings** > **Toolbar** to remove the Browser Bar.



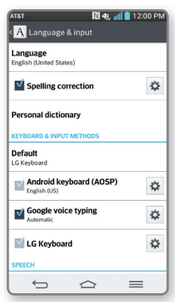


P/N MBM64036301(1.2) H

# Input Language

### *Change Device and Input Language*

① From the home screen, press and tap **All settings** > **General** > **Language & input**.
② To change the device language, tap **Language**.
③ To change the keyboard input language, tap next to the desired keyboard.
④ Tap **Input languages**.
⑤ To add input languages, uncheck **Use system language** and tap to select. You can change languages by tapping when you have a keyboard open, for instance while typing a text message.



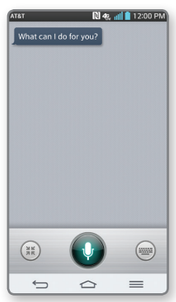
# Voice Mate

Use your voice to perform phone functions, such as calling contacts.

① From the home screen, tap .
② Read and accept the EULA and privacy policy.
③ If desired, view the tutorial. Otherwise tap **Skip**.
④ Wait for the beep and then speak your command, such as "Call [contact name]."
⑤ If prompted, confirm your command.

### *Access from Lock Screen*

① From the home screen, tap > > **Settings** > **Voice launch on Lock screen**.
② When the lock screen is displayed, say "LG Mobile" to unlock the phone and launch Voice Mate.

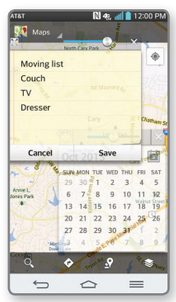


# QSlide 2.0™

From any screen, bring up a notepad, calendar, and more as a window inside your screen.

① From any screen, swipe down from the top of the screen to bring down the Notifications Panel.
② Tap one of the QSlide apps. The app will appear as a resizable, moveable window on the screen.
③ Drag the corner to enlarge the window and drag the top bar to move it. Tap to make the QSlide app full size. Tap to make the app smaller again. Use the slider to adjust the transparency of the window.
④ To exit QSlide 2.0, tap .

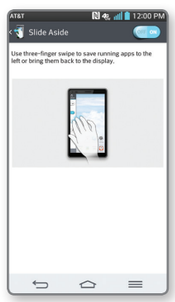
Ben Davis
Are you free on the 25th? Chloe wants to check out that new pizza place.
Oct 2013
Yeah, I'm free. What time were you thinking?
Send



# Slide Aside

Use a three-finger swipe to save running apps to the left or bring them back to the display*.

① From the home screen, press and tap **All settings** > **General**.
② Tap to turn on Slide Aside.
③ Press and open an app.
④ Place three fingers on the screen and drag the app off the screen to the left.
⑤ To bring the app back, drag three fingers to the right.

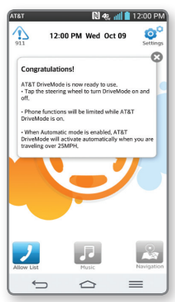


*Some apps may restart when brought back later.

# AT&T DriveMode™

When your vehicle is in motion, automatically respond to incoming calls, texts, and emails.

① From the home screen, tap > .
② Review and accept the terms of service. Tap **Continue**.
③ Set your AutoReply message and tap **Next**.
④ Choose which features you want to set for AutoReply and tap **Next**.
⑤ If desired, add contacts to your Allow List and tap **Next**.
⑥ If GPS is off, you will be prompted to turn it on. Follow on-screen instructions.
⑦ Choose to enable or disable Automatic Mode and tap **Finish** > **Continue**.



12:00 PM Wed Oct 09
Congratulations!
AT&T DriveMode is now ready to use.
• Tap the steering wheel to turn DriveMode on and off.
• Phone functions will be limited while AT&T DriveMode is on.
• When Automatic mode is enabled, AT&T DriveMode will activate automatically when you are traveling over 25MPH.

12:00 PM Wed Oct 09
AT&T DriveMode status: ON
To exit the app and use your phone functions, turn off AT&T DriveMode by tapping the steering wheel image.
ON
AT&T DriveMode

AT&T DriveMode is free to AT&T customers. Standard data and messaging rates apply to auto-reply messages.

# Wi-Fi and Bluetooth®

### *Connect to Wi-Fi*

① From the home screen, press and tap **All settings** > **Networks** > **Wi-Fi**.
② If desired, take the tutorial to set up Wi-Fi. Otherwise, tap to turn on Wi-Fi.
③ Tap a network name. Enter a password if required and then tap **Connect**.

### *Use Bluetooth*

① From the home screen, press and tap **All settings** > **Networks** > **Bluetooth**.
② If *Bluetooth* is off, tap to enable it.
③ G2 will automatically search for devices. Tap a device to pair. See the *Bluetooth* device's user manual for more information on pairing.

# Network Indicators

Your 4G LTE wireless device will indicate which of the AT&T wireless networks you are connected to. A network indicator does not necessarily mean that you will experience any particular upload or download data speeds.

**4G LTE:** Connected to the AT&T 4G LTE network.

**4G:** Connected to the AT&T HSPA+ network. The AT&T HSPA+ network is capable of delivering 4G speeds when combined with enhanced backhaul. 4G availability is increasing with ongoing backhaul deployment.

**E:** Connected to the AT&T EDGE/2G network.

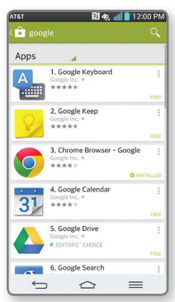
Actual data upload and download speeds depend on various factors, including the device, network utilization, file characteristics, terrain, etc. Learn more at: **wireless.att.com/learn/articles-resources/wireless-terms.jsp**, your AT&T Wireless Customer Agreement, Section 3.2 "Where and How Does AT&T Service Work?" The AT&T HSPA+ network can deliver 4G speeds when combined with enhanced backhaul. Your wireless device can't distinguish between HSPA+ cell sites with enhanced backhaul and those without. Enhanced backhaul not available everywhere. Learn more at **att.com/network**.

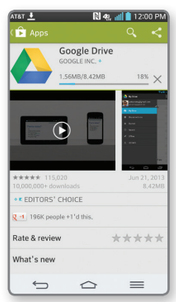
Limited 4G LTE availability in select markets. 4G speeds delivered by LTE, or HSPA+ with enhanced backhaul, where available. Deployment ongoing. Compatible device and data plan required. LTE is a trademark of ETSI.

# Google Play™ Store

Once you have set up your Google account, you can download apps from the Play Store. You may want to download apps over Wi-Fi to save on your data plan usage.

① From the home screen, tap > .
② Tap a category to browse selections, or tap to search for an item.
③ Tap an app and follow the on-screen installation instructions. Once the app has been downloaded and installed, you will see a notification in the Notifications Bar.
④ To open the app, swipe down from the top of the screen and tap the notification. You can also find the app in .





Note: To purchase a paid app, you will need to set up a payment method with Google Wallet™.

# AT&T Services

AT&T offers a multitude of apps designed to make your everyday life easier.

**myAT&T:** Track your usage, review and pay your bill, and update your data plan services.

**AT&T Code Scanner:** Reads UPC, QR, and Data Matrix barcodes that you find on products, in ads, or online.

**AT&T Locker™:** Safely store and share all your photos, videos, and documents with up to 5 GB of free storage.

**AT&T Navigator®:** Get voice-guided, turn-by-turn driving directions and traffic updates.

**AT&T Smart Wi-Fi:** Maximize your battery performance and data plan, simplify access to AT&T Hot Spots and Wi-Fi networks, automate your Wi-Fi connections, and track your data usage.

**Messages:** Manage your text messages, call history, voicemail, and more, all in one convenient place.

**Mobile Hotspot:** Share your mobile network data connection with other Wi-Fi devices.

**Mobile TV:** Watch LIVE, on-demand, and downloadable mobile TV.

Data rates may apply. Mobile TV and AT&T Navigator require a separate subscription. Mobile TV requires mobile broadband service. Service not available in all areas. Programming subject to blackout restrictions. Download and watch capability available for select content, requires Wi-Fi connection, and is available for viewing for limited time periods.

# Find More Information

### *On The Web:*

- Find tutorials at **att.com/devicehowto**.
- Find device specifications, user manuals, troubleshooting, and user forums at **att.com/DeviceSupport**.
- Manage your wireless account, including suspending service if your phone is stolen, at **att.com/myatt**.

### *Apps on Your Phone:*

- Access how-to videos for G2 at **Apps** > **Device Help**.
- Access your account at **Apps** > **myAT&T**.

### *Give Us a Call:*

Call AT&T Customer Care at 1-800-331-0500 or dial 611 from any AT&T mobile phone for assistance with your service or device.

### *Find Accessories*

Accessories for your smartphone are available at **att.com/WirelessAccessories** or visit your local AT&T store.
